<b>Why choose low-income apartment communities?</b>			
-Many of these properties offer income-based rent.			
-Others offer more affordable rent that is below market value for qualifying residents			
-Many also accept the Section 8 Voucher			
-Most of these properties only charge for one or two utilities (like gas and electric). They do not often charge for sewer, water, and garbage.			
-Apartments tend to be a lot cheaper to heat than free-standing family houses.			
-The apartment properties take care of lawn care and snow removal.			
-Most of these properties are close to public transportation.
